2002 Fourth Quarter Drug Fee Update

The allowance for drugs is based on the national Average Wholesale Price (AWP) for all sources of the pharmaceutical. If more than one available source of a drug exists, 95% of the median of the national wholesale generic prices is used, unless a brand AWP is lower. If a generic source of a drug does not exist, 95% of the brand product with the lowest AWP is used to calculate the allowance. The fee changes are bolded.

The unit of measure for the fee amounts noted corresponds to the unit of measure noted in the code descriptions published in the 2002 HCPCS coding manual. Please be sure to report the same unit of measure in the Days/Unit field (Item 24g) of the CMS-1500 (12-90) claim form as is listed in your HCPCS manual. For example, if the HCPCS manual lists one unit as 50 mg., be sure to report 50 mg. as one unit on the claim form. If you administered 100 mg., you would list two units on the claim form.

The following drug allowables are effective October 1, 2002 and are subject to change on a quarterly basis:

HCPCS	Region C	HCPCS	Region C	HCPCS	Region C
J0285	10.28	J7626KO	4.34	J7681KO	IC
J0286	88.66	J7626KP	4.34	J7681KP	IC
